

Dedham Church Organ Group

Our existing Hill organ is at the end of its serviceable life and is beyond economic repair.

Proposal.

The existing Hill organ be removed from St Mary's Church Dedham.

To be replaced by a fine pipe organ with a good pedigree from a redundant church, for refurbishment and installation in Dedham Church, maintaining the current configuration.

A 1902 Binns 2- manual organ from Harvest Church, formerly Mossbank Parish Church Glasgow is available, meets the criteria and fits into our existing organ loft.

To relocate, refurbish and rebuild the 1902 Binns organ from Glasgow in St Mary's Church Dedham.

**Public meeting in Dedham Church
Sunday 26th September at 10.45am**
